Nothing But Spring In the Store Now

The store to-day is arrayed in its spring dress and the transformation from the heavy garb of the winter to the light weights and dainty colorings of the new season is complete.

You began thinking of spring fabrics three or four weeks ago perhaps. Our preparations began as many months back, and here's the advantage we have over you.

You must think and plan for everything in connection with your toilet. So must we-but our thinking is divided up amongst many heads-each head thinking and planning the very best for its own particular department, and yet having the advantage and assistance of the general store system.

For example, the Silk and Dress Goods Department has for months been examining samples and buying goods that are now ready for your selec-

The whole time of this department has been given to its own fabrics-apparently regardless of the fact that a muslin underwear, a suit section or any other department existed in the store.

It's the same way with the Suit and Coat department their best efforts were put forth to make that section the most complete in Richmond, knowing that the other departments were working along the same lines, and that all these specialty stores—for that is practically what they are-would be blended into one harmonidus whole under one roof, all controlled and governed by a system

Briefly, let us mention a few of the contents of these seperate stores in one building: Kid and Fabric Gloves, the latter to be so much worn this season; the finest stock of Parasols we or anybody else have ever carried in Richmond; new Underwear, both French and domestic; Wash Fabrics, that in which it would seem impossible any improvement in texture and coloring could ever be made; Cut-Glass, Bric-a-Brac and Fine China of all kinds; Fine Mattings, Summer Curtains and Drap-

As we said in the beginning, these are the reasons our store to-day has a perfect showing of spring fabrics and furnishings. The store may seem to have blossomed forth suddenly-but only in the sense that the rosebud blossoms suddenly-after a long preparation in the bud.

I do not know any other way or agent through which I can secure the address. I first looked in all the English magazines I could find, but to no avail If you will secure the name and address of one I shall be indebted to you.

It is contrary to my rule to give business addresses in this country, but the same principle need not hold good with regard to transatlantic addresses. Hope Brothers are among the best-known haberdashers in London. They have nunerous egualplishments. One is on High Holborn, near Southampton Road, another is on Oxford Street; another on Ludgate Hill. If you write to them you can gain what information you wish.

would you please tell me how I could train my ear for music? I am a young man and a lover of music, but have no ear for it at all. Isn't there amy way that I could train the ear, or isn't a thing like that possible?

There are persons that think that one is born with an ear for music and that it cannot be cultivated. Others think the it cannot be cultivated. Others think the attempt worth while. Learn to read music and practice on singing by ear, hear good music and try to reproduce it with the voice. This is the only advice I can give you.

I am thisting for knowledge of literature and languages, I work in an office during the day and attend evening school three times a week. I will soon have completed a course in stenography.

Do you know where I could obtain instruction in the above-named studies in exchange for stenographic work.

I have had a grammar school education and am now eighteen years old. I would like to have a three or four years' course.

A NEW LIFE-SAVING FOOD.

The Most Valuable Blood - Making, Tissue - Building. Strength-Producing Product Known to Medical Science.

A PRE-NATAL ALIMENT OF SURPASSING EXCELLENCE AND A POWERFUL AID TO NURSING MOTHERS.

Ozomulsion is the new medicated food. It is a scientific combination of cod liver oil, gualacol, glycerine and the hypophosphites of lime and soda, vitalized

The properties of its ingredients are: The properties of its ingredients are:
Cod liver oil—blood-making, tissuebuilding, nourishing, sustaining.
Guniacol—antiseptic, germ-destroying,
cough-appeasing, cutarrh-curring.
Glycerine—soothing, healing, soften-

growing. Ozone-vitalizing, exhilarating, germ

Ozone—vitalizing, exhilarating, germresisting, cleansing.
Compounded of substances that nourish, and sustain, the use of Ozonulsion
means buoyant health.
Always uniform in quality, it is
speedily digested and assimilated.
Rich in cell-building material it quickens the process of cell-life.
It builds up tissue gradually, naturally, physiologically.
It arrests the morbid changes in nerve
centers, and supplies to the system the
greatest power of endurance.
It is germ-resisting, germ-destroying.
It stimulates the sceretions of the
stomach and enables them to kill the
germs of disease before they can reach
the blood.

It is only those whose systems have been weakened by careless methods of living that germs can successfully attack.

Ozomulsion maintains health and strength at their proper pitch and keeps the body in condition to repel the microbic action.

erobic action.

It is essential to health because it prevents disease.

To successfully combat and cure all wasting diseases three great essentials

wasting diseases three great essentials are necessary:
First—An appetizer to stimulate a desire for food.
Second—A tonic to promote the functions of the digestive organs and correct gastric disturbances.
Third—A food to increase the quantity of flesh and add to the strength.
Ozomulsion, while essentially a flesh-producer and up-builder, also contains properties that increase the appetite, stimulate the action of the salivary glands and the flow of the gastric and pancreatic juices.
This means proper digestion, perfect assimilation and good, solid flesh.
To the wasting consumptive Ozomulsion will prove a benefactor and a blessing.

Diminish the cough and expectoration. Stop the morbid charges in the lungs. Arrest the destruction of lung sub-

stance.
Prevent the softening and disintegration of pulmonary tissue.
Check the exhausting night sweats.
Provide the proper kind of food to combat the weakening effects of the disease and its fever.
Arrest emaciation and bring back flesh and strength to the depleted system.

For the weak, the worn-out and the weary, and all who realize that their vital powers are waning. Ozomiusion will prove a most palatable, wholesome and unlifting food, while those in health and strength will find its germ-resisting properties a bulwark against the inroads and ravages of disease.

Although but recently introduced the

and ravages of disease.

Although but recently introduced, the record Ozomulsion has already made proves it to be the most powerful weaton for combating and curing all wasting diseases that the physician has at his command to-day.

Don't confound Ozomulsion with the ordinary cod liver oils of commerce. It is specifically different. It is not only paintable, but deliciously agreeable to the taste and entirely free from the nauscating, fishy flavor of the common cod liver oil. It is also non-fermentative and non-acid-making.

Dear reader, perhaps you may think Arrest emaciation and strength to the depleted \$38-\$ tem.

The value of Ozomulsion as a prematal aliment and for nursing mothers and weak, puny, children cannot be estimated.

To the expectant mother it is invaluable. It have the foundation for a generous supply of prematal food. Rich in those elements that maintain a perfect nutrition, it produces a healthy growth of the vascular and nervous system.

For nursing mothers it is most important. Its great neurishing qualities provide the proper supply of food on which the baby must depend for growth and strength, while its lime and soda make good bone and teeth material.

As an up-builder of weak, siekly children it has no equal. Its powerful sustaining properties render it incomparably superior to all other foods, No fear of weak-boned or "rickety" children when Ozomulsion is used.
